

Package ‘prismadiagramR’

October 14, 2022

Title Creates a Prisma Diagram using 'DiagrammeR'

Version 1.0.0

Description Creates 'PRISMA' <<http://prisma-statement.org/>> diagram from a minimal dataset of included and excluded studies and allows for more custom diagrams. 'PRISMA' diagrams are used to track the identification, screening, eligibility, and inclusion of studies in a systematic review.

R topics documented:

getPrisma	2
getPrismaFormat	2
studyStatus	3

Index	4
--------------	----------

getPrisma	<i>Create Prisma These functions create a PRISMA diagram from a simple dataframe keeping track of sources and filters It creates a DiagrammeR file run by grV</i>
-----------	---

Description

Create Prisma These functions create a PRISMA diagram from a simple dataframe keeping track of sources and filters It creates a DiagrammeR file run by grV

Usage

```
getPrisma(studyStatus = NULL, prismaFormat = NULL)
```

Arguments

studyStatus	a dataframe that keeps track of
prismaFormat	how large to make the characters in the diagram

Value

prismaTemplate A text file use to make a PRISMA diagram.

Examples

```
prismaTemplate <- getPrisma(studyStatus)
prismaFormat <- getPrismaFormat(studyStatus)
prismaTemplate <- getPrisma(studyStatus, prismaFormat)
DiagrammeR::grViz(prismaTemplate)
```

getPrismaFormat	<i>Create Prisma These functions create a PRISMA diagram from a simple dataframe keeping track of sources and filters It creates a DiagrammeR file run by grV</i>
-----------------	---

Description

Create Prisma These functions create a PRISMA diagram from a simple dataframe keeping track of sources and filters It creates a DiagrammeR file run by grV

Usage

```
getPrismaFormat(studyStatus)
```

Arguments

studyStatus	a dataframe that keeps track of studies used.
-------------	---

Value

prismaFormat A dataframe with information on how to make a PRISMA diagram.

Examples

```
prismaTemplate <- getPrisma(studyStatus)
prismaFormat <- getPrismaFormat(studyStatus)
prismaTemplate <- getPrisma(studyStatus, prismaFormat)
DiagrammeR::grViz(prismaTemplate)
```

studyStatus	<i>Prices of 50,000 round cut diamonds.</i>
-------------	---

Description

A dataset containing one row per entry in the PRISMA diagram.

Usage

```
studyStatus
```

Format

A data frame with 10 rows and 4 variables:

Pub.ID Publication unique identifier

Source Source identifier

Filter Filter identifier
